P R E F A C E.

THE compiler having derived great assistance from these Tables (in a more useful form,) in the course of a long official experience, would recommend them to the Public, as effecting *a great economy of time and trouble* having himself achieved by their assistance, in the space of a few *hours*, duties, which would have occupied as many *days* without their aid, and then not have possessed that satisfactory certainty, which he can guarantee to these calculations; for he has not begrudged the time and labor necessary to attain that positive accuracy which is so indispensably requisite in all figured Statements, especially in such as are connected with *pecuniary transactions*.
